

Business Process: Making Academic Offers

Linda Bidi

CONTENTS

1. Frustrations of students
2. Frustrations of universities
3. Offer letters process without sending offer letters
4. Offer letters process using third party services
5. Offer letters process through the iEnabler
6. Future of offers

Frustrations of Students

- Students not knowing when universities will start registration period
- No to little communication from institution
- Different information being sent out by different people in the same institution

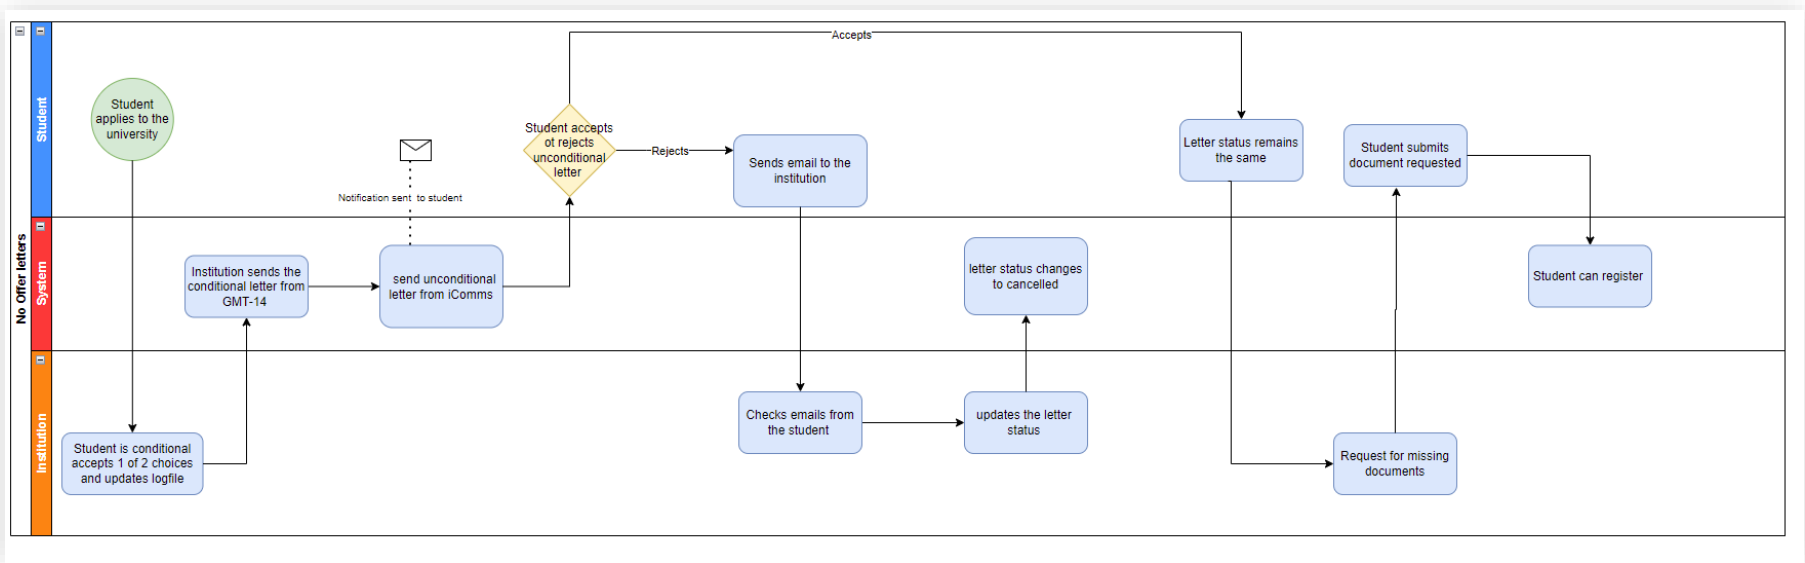

Frustrations of universities

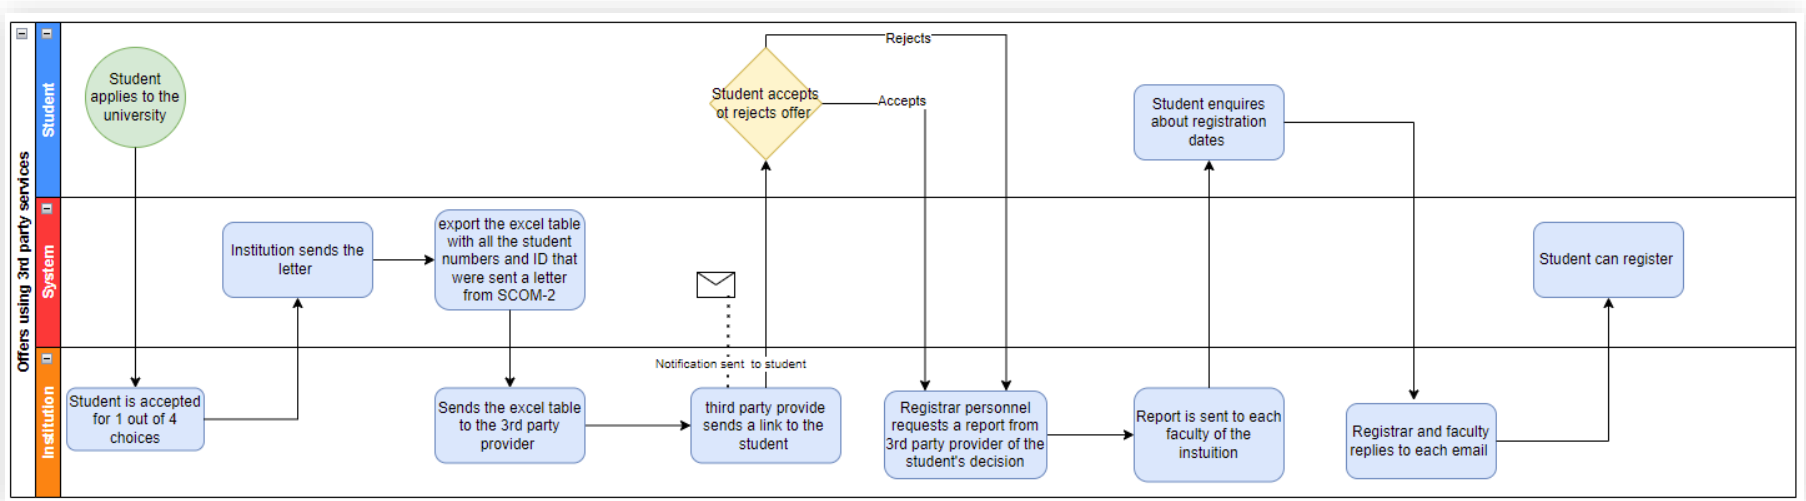

- Not knowing if students will register
- Number of student who register affecting the quota of the university

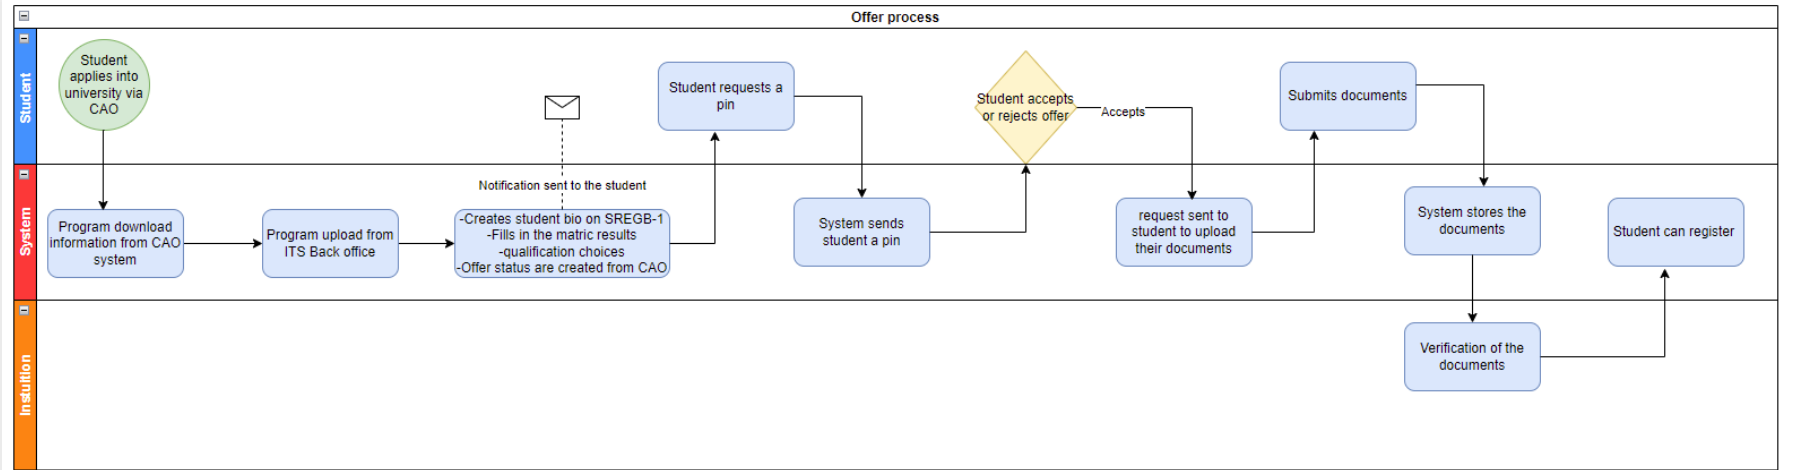

Offer letters process without sending offer letters

Offer letters process using third party services

Offers letters process through the iEnabler

Benefits of offers letters through iEnabler

Less administration

**Knowing your
expected quota**

**Know the number of
students who will
register**

**Less enquiries from
students and parents**

How do you do it in your institution?

**Offer letters process
without sending offer
letters**

**Offer letters process
using third party
services**

**Offers letters process
through the iEnabler**

The future of Offers

The image displays three overlapping screenshots of a web application interface. The background screenshot shows a 'Faculty Name' header, a '1 Month 12 Days 17 Hours Registrations Close' timer, and a 'Most Eligible' list with a 'Filters' button. The middle screenshot is a 'Make Offer' modal dialog with options for 'Provisional Offer', 'Firm Offer', and 'VIP Offer', and a 'Save and Send' button. The foreground screenshot shows a 'Most Eligible' list with a dropdown menu open, displaying 'Top 10', 'Top 100', and 'None' options.
