What is REMchannel?

REMchannel is a cutting-edge reward management platform giving employers the tools to create a defensible reward strategy.

By participating in REMchannel's surveys, employers gain extensive insight into remuneration and reward trends across Industries.

REMchannel provides businesses with this invaluable intelligence, including the following:

- Extensive market-related remuneration, reward and employee benefits information.
- Real-time data accessed via a live database that is constantly updated.
- Flexible, 24/7 data mining capabilities that allow users to define remuneration across industries, markets, job positions and grades.
- User-friendly, intuitive interfaces. including profiling and evaluation tools that allow for ease of data submission and retrieval.

REMchannel benefits:

- **Reliable and accurate** – thanks to approximately 1 million data points
- **Up-to-date data** – with ongoing rigorous testing to ensure validity and integrity.
- **Time-saving** – REMchannel insights mean less time spent on research, and more time on effective strategy implementation.
- **Value for money** - one data submission per year gives you access to multiple surveys and extensive data.
- **Empowering** – enables your business to build informed, defensible remuneration strategies

THE PROCESS

- Access & Participation is subject to and annual subscription and a compulsory submission of your own pay data.
- The submission of data is subject to rigorous testing to ensure validity.
- The submission dates correlates with client's annual increase periods and is normally submitted the month after increase implementation.
- Let's look at the upload and matching process:
